In 'Origins, Interactions, and Domestication of Felis Catus', renowned zoologist and cat expert Dr. Jane Doe takes readers on a captivating journey through the history of cat domestication. Drawing on years of research and the latest scientific discoveries, Dr. Doe traces the evolution of cats from their wild ancestors to their modern-day counterparts.

This comprehensive and richly illustrated book covers a wide range of topics, including:

- The origins of cats and their relationship to other felids
- The process of cat domestication and the role of humans
- The anatomy, behavior, and communication of cats
- The different breeds of cats and their unique characteristics
- The future of cat-human relationships

Praise for 'Origins, Interactions, and Domestication of Felis Catus'

“A fascinating and authoritative account of the domestic cat's journey. Dr. Doe's research is impeccable, and her writing is both engaging and accessible.” - Dr. John Smith, Professor of Zoology, University of California, Berkeley”

“A must-read for cat lovers and anyone interested in the history of human-animal relationships.” - Jane Doe, Author of 'The Dog: A Natural History'”
