Public employee unions are under attack. In recent years, we have seen a concerted effort by politicians and corporate interests to weaken unions and strip workers of their rights. These attacks have taken many forms, including legislation that makes it more difficult for workers to organize and bargain collectively, cuts to public funding for union services, and even outright attacks on the right to strike.

In the face of these attacks, it is more important than ever for public employee unions to rediscover their militant traditions. Militant tactics are those that are designed to disrupt the normal functioning of society and bring attention to the demands of the workers. These tactics can include strikes, protests, and civil disobedience.
