The book begins by examining the early history of Greek immigration to Chicago. The first Greek immigrants arrived in the city in the late 19th century, fleeing poverty and political instability in their homeland. They settled in the Near West Side neighborhood, where they established businesses that catered to the needs of the growing Greek community.

In the early 20th century, Greek immigrants began to move to other parts of Chicago, including the South Side and the suburbs. They continued to establish businesses, and they also became involved in other aspects of the city's economy, such as real estate and manufacturing.

The Great Depression was a difficult time for Greek immigrants in Chicago, as it was for all Americans. Many Greek-owned businesses were forced to close, and many Greek immigrants lost their jobs. However, the community persevered, and by the end of the 1930s, Greek immigrants were once again playing a major role in the city's economy.

After World War II, Greek immigration to Chicago resumed, and the Greek community continued to grow. Greek immigrants established new businesses, and they also became more involved in the city's political and civic life.

Today, Greek immigrants are a vital part of the Chicago economy. They own and operate businesses in a wide range of industries, including food, retail, and manufacturing. They are also active in the city's real estate market, and they have made significant contributions to the city's cultural and civic life.
